Your facial skin is subjected to emotions and stresses often revealed as "expression" lines. These result from the multitude of involuntary micro-contractions of facial muscles every day, leading to fine lines and wrinkles. They're the inevitable consequence of movements and pulling on the skin. Our new Essanté Organics *'instant facelift duo'* helps turn back time/aging in a healthful way ... instantly!

Make this **YOUR choice** for beautiful, younger-looking skin and a healthful appearance. Place your order for this face lift duo today!

Directions:

Step 1 - apply **Regener8 Firming Serum** to lift, support and firm your skin. Apply a.m. and p.m. over moisturizer. It will regenerate your skin's appearance and texture. This serum aids your skin by hydrating and smoothing the collagen, leaving it plump, smooth and younger-looking.

Step 2 - apply **BioEnhanced Face Lift** gel lightly over **Regenerate8™ Firming Serum**. **DO NOT** rub after application or the tensile strength of the invisible lifting veil may weaken, diminishing the overall effectiveness of your face lift.

What makes this Face Lift duo so effective?

Our own Essanté Organics test with volunteers resulted in **98% of participants experiencing an immediate, visible smoothing-out of fine lines, crow's feet around their eyes, and wrinkles**. The results included **very** visible reduction of wrinkle depth and fresher, more rested and younger-looking skin. **PHENOMENAL!!**

In vitro tests on our formulations show the chemical free ingredients **precisely and rapidly target** mechanisms in the skin which are responsible for formation of expression lines. **That means our Face Lift duo instantly and strongly reduces the wrinkled appearance** of a large majority of the test subjects.
